OT FIT 35/220-240/350 D LT2 L

OPTOTRONIC FIT D LT2 L | Linear / Area Constant Current - Non dimmable

Product family features

- Line frequency: 0 Hz | 50 Hz | 60 Hz
- Versatile scope of application due to output power range of up to 120 W
- Supply voltage: 220...240 V
- Available with output current range: up to 750 mA
- Non-isolated drivers

Product family benefits

- Flexible current setting (LEDset2)
- Lifetime: up to 100,000 h (temperature at T_c = 65 °C, max. 10 % failure rate)
- High quality of light thanks to low output ripple current
- Very high efficiency
- Fulfill safety requirement due to overload, overtemperature, Hot Plug protection

OSRAM

product - technical datasheet

Areas of application

- Linear lighting for office, education, industry, storage areas and retail
- Installation in emergency lighting systems according to IEC 61347-2-13, appendix J
- Suitable for installation in emergency lighting systems according to EN 60598-2-22
- Suitable for luminaires of protection class I

OSRAM

Dimensions & weight

Colors & materials

Casing material	Metal

Temperatures & operating conditions

Ambient temperature range	-25+60 °C
Max.housing temperature in case of fault	110 °C
Maximum temperature at tc test point	75 °C
Permitted rel. humidity during operation	585 % ¹⁾
Temperature range at storage	-2585 °C

¹⁾ Maximum 56 days/year at 85 %

OSRAM

product - technical datasheet

Lifespan

ECG lifetime	50000 h / 100000 h ¹⁾

1) At maximum $T_c = 75^{\circ}$ C / 10% failure rate / At $T_c = 65^{\circ}$ C / 10% failure rate

Additional product data

	Encapsulated	No
--	--------------	----

Capabilities

Dimmable	No		
Max. cable length to lamp/LED module	2.0 m ¹⁾		
Overload protection	Automatic reversible		
Overheating protection	Automatic reversible		
Suitable for emergency lighting	Yes		
Suitable for fixtures with prot. class	I		
Type of connection, input side	Push terminal		
Type of connection, output side	Push terminal		
Constant lumen function	No		
Intended for no-load operation	No		
No-load proof	Yes		
Number of channels	1		
Programming interface	LEDset		
Short-circuit protection	Automatic reversible		

¹⁾ Output wires must be routed as close as possible to each other

OSRAM

product - technical datasheet

Ecodesign regulation information:

Intended for use with LED modules.

The forward voltage of the LED light source shall be within the defined operating window of the control gear in all operating conditions including dimming if applicable.

Separate control gear and light sources must be disposed of at certified disposal companies in accordance with Directive 2012/19/EU (WEEE) in the EU and with Waste Electrical and Electronic Equipment (WEEE) Regulations 2013 in the UK. For this purpose, collection points for recycling centres and take-back systems (CRSO) are available from retailers or private disposal companies, which accept separate control gear and light sources free of charge. In this way, raw materials are conserved and materials are recycled.
