

OT WI 25/220-240/700 NFC CA LPI

OPTOTRONIC Wireless Intelligent – Casambi NFC LP I | Compact constant current LED driver – Dimmable

Product family features

- Driver with integrated CASAMBI lighting control system
- Supply voltage: 220...240 V
- Line frequency: 0 Hz | 50 Hz | 60 Hz
- Line voltage: 198...264 V
- Lifetime: up to 100,000 h
- Type of protection: IP20
- Integrated cable clamp for luminaire and independent installation

Product family benefits

- Small housing for flexible luminaire designs
- Versatile CASAMBI window driver due to flexible output characteristic
- Easy and fast output current setting via NFC
- Very high efficiency
- High-quality dimming of 1...100 % by amplitude dimming

Specifications are subject to changes without notice.

Areas of application

- Suitable for downlights, spotlights and LED panels
- Suitable for use in luminaires with flexible current setting
- Installation in emergency lighting systems according to IEC 61347-2-13, appendix J
- Suitable for indoor SELV installations
- Suitable for luminaires of protection classes I and II

Technical data

Electrical data

Nominal output voltage	10...54 V ¹⁾
Input voltage DC	176...276 V
Nominal output current	180...700 mA ²⁾
Inrush current	20 A ³⁾
Max. ECG no. on circuit breaker 10 A (B)	50
Max. ECG no. on circuit breaker 16 A (B)	80
Nominal output power	27 W
Input voltage AC	198...264 V ⁴⁾
Power factor λ	0.49C...0.99
U-OUT (working voltage)	60 V
Surge capability (L-N)	1 kV
Surge capability (L/N-Ground)	2 kV
Mains frequency	0,50,60 Hz
Protective conductor current	not relevant
Nominal input voltage	220...240 V
Total harmonic distortion	< 10 % ⁵⁾
Output current tolerance	± 3 %
Maximum output power	27 W ⁶⁾
Output ripple current (100 Hz)	< 3 % ⁷⁾
Maximum TX power	8 dBm ⁸⁾
Current set	NFC
Radio frequency	2.4 GHz
Wireless protocol	Casambi Evolution
Wireless range	10 m line of sight
Networked standby power	0.15 W ⁹⁾

1) Maximum 60 V

2) $\pm 3\%$

3) $t_{\text{width}} = 25 \mu\text{s}$ (measured at 50 % I_{peak})

4) Permitted voltage range

5) At full load, 220...240 V, 50 Hz / see graphs

6) Partial load 3.6...27 W

7) Ripple average at 100 Hz

8) 2.512 mW

9) at 230 V, 50 Hz

Dimensions & weight

Product weight	150.00 g
Mounting hole spacing, width	not relevant mm
Mounting hole spacing, length	108.0 mm
Wire preparation length, output side	7...8 mm
Wire preparation length, input side	7...8 mm
Cable/wire length, output side	2000 mm
Cable cross-section, output side	0.5...1.5 mm ^{2 1)}
Cable cross-section, input side	0.75...1.5 mm ^{2 1)}
Length	150.0 mm
Height	22.0 mm

1) Solid or flexible leads

Colors & materials

Product color	White
Casing material	Plastic

Temperatures & operating conditions

Max.housing temperature in case of fault	110 °C
Maximum temperature at tc test point	85 °C ¹⁾
Ambient temperature range	-20...+50 °C
Temperature range at storage	-40...+85 °C
Permitted rel. humidity during operation	5...85 % ²⁾

1) Maximum at the Tc-point

2) Maximum 56 days/year at 85 %

Lifespan

ECG lifetime	50000 h / 100000 h ¹⁾
---------------------	----------------------------------

1) $T_c = 85^\circ\text{C}$, 0.2% / 1,000 h failure rate / $T_c = 75^\circ\text{C}$, 0.1% / 1,000 h failure rate

Additional product data

Encapsulated	No
---------------------	----

Capabilities

Max. cable length to lamp/LED module	2.0 m ¹⁾
Dimming range	1...100 %
Dimming method	Amplitude Modulation
Dimming interface	Bluetooth CASAMBI
Suitable for emergency lighting	Yes
Short-circuit protection	Automatic reversible
Overload protection	Automatic reversible
Overheating protection	Automatic reversible
Dimmable	Yes
Suitable for fixtures with prot. class	I / II
No-load proof	Yes
Type of connection, input side	Push terminal
Type of connection, output side	Push terminal
Constant lumen function	Programmable
Programming interface	NFC

1) Output wires must be routed as close as possible to each other

Programming

Box programming	Yes
-----------------	-----

Programmable features

Tuning Factor	Yes
Driver Guard	Yes
Emergency Mode	Yes
DALI-2 Luminaire Data	No
Configuration Lock	Yes
Soft Switch Off	Yes
Dim to Dark	Yes
Corridor Functionality	not relevant

Certificates & standards

Standards	Acc. to EN 61347-1 / Acc. to EN 61347-2-13 / Acc. to EN 55015 / Acc. to EN 61547 / Acc. to EN 61000-3-2 / Acc. to EN 62384 / Acc. to EN 62479 / Acc. to ETSI EN 300 328 / Acc. to ETSI EN 301 489-17 / Acc. to ETSI EN 301 489 - 1
Approval marks – approval	CE / UKCA / ENEC / EAC / EL / BIS
Type of protection	IP20

Additional product information

- Download Casambi app from App store or Google play. For the correct functioning of the Casambi app refer to the Casambi website: <http://www.casambi.com>.
- The Casambi App is provided to you by Casambi. OSRAM shall have no liability for the Casambi app and does not make any representations, express or implied, about the availability and/or performance of the Casambi app.
- The Casambi cloud services are provided to you by Casambi. OSRAM shall have no liability for the Casambi cloud services and does not make any representations, express or implied, about the availability and/or performance of the Casambi cloud services.
- OSRAM shall have no liability for and does not make any representations, express or implied, about the connectivity of Casambi ready products of OSRAM with any other Casambi ready products.
- There are two places in the app where you can unpair a Casambi enabled device from a network.
 1. Go to the 'Luminaires' tab and tap 'edit'. Unpair a luminaire by tapping the ("X") that will appear in the corner of the relevant luminaire icon. You can also double-tap a luminaire icon to open the "luminaire properties" screen, and then scroll down and tap 'Unpair device'.
 2. Go to the "Nearby devices" screen found under the 'More' tab. Tap on the device you wish to unpair and select 'Unpair device'. This will unpair the luminaire if you have modification (administrator) rights to the network. If you don't have the modification rights to the network that the device is paired to then you need to have access to the devices power switch to be able to unpair. Tap on the device you wish to unpair and select 'Unpair device' and the app will open the 'Unpair' screen. Tap on the 'Start' button and an orange "Time bar" will appear and start to move across the screen. During the time it takes the bar to move across the screen, flick the power switch off and back on again. This should unpair the device. If unpairing succeeds then there is a message that luminaire has been unpaired. If it does not succeed then try again but switch the power off and on again more slowly (This may be needed for devices that use an additional power supply; such as a CBU-PWM4). If unpairing continues to be unsuccessful then it is probably the case that the power switch is not correct for the device you are trying to unpair.

Ecodesign regulation information:

Intended for use with LED modules.

The forward voltage of the LED light source shall be within the defined operating window of the control gear in all operating conditions including dimming if applicable.

Separate control gear and light sources must be disposed of at certified disposal companies in accordance with Directive 2012/19/EU (WEEE) in the EU and with Waste Electrical and Electronic Equipment (WEEE) Regulations 2013 in the UK. For this purpose, collection points for recycling centres and take-back systems (CRSO) are available from retailers or private disposal companies, which accept separate control gear and light sources free of charge. In this way, raw materials are conserved and materials are recycled.

Logistical Data

Product code	Product description	Packaging unit (Pieces/Unit)	Dimensions (length x width x height)	Volume	Gross weight
4062172228053	OT WI 25/220-240/700 NFC CA LPI	Shipping carton box 20 Pieces	314 x 122 x 107 mm	4.10 dm ³	121.00 g

The mentioned product code describes the smallest quantity unit which can be ordered. One shipping unit can contain one or more single products. When placing an order, for the quantity please enter single or multiples of a shipping unit
